

St. Michael Eco School

E- Waste (electronic waste) Drive & Clothing Recycling Drive

May 14 to May 18

Eligible electronic waste items need to follow the following checks:

- ✓ have a plug
- ✓ run on batteries
- ✓ no longer works
- ✓ no longer used
- ✓ can easily be transported

As an Eco school we are once again participating in our annual electronic waste & clothing drive in partnership with Ontario Electronic Stewardship & Cerebral Palsy organization.

All our e-waste and clothing will be weighed to determine how much waste was diverted from going to the landfill. We have attached a clear bag for donations to the clothing drive.

Please remember that we continue to recycle batteries, cartridge printers, and plastic writing tools (pens, markers, highlighters, mechanical pencils that no longer work) all year round.

Simply drop these recyclable items off in the office.

Thank you from your St. Michael Eco Team
